Ed,
The EPA response to Boehner to working it's way up the chain, and I was asked again if USCG has completed their response. If so, could you please send the draft or final?

Thanks again,
Bill

Bill: I've sent inquiries to the program this morning and unfortunately I have not gotten answer back as to status. I would draft it along lines of the information that has been provided - that Storis was transferred free of PCB's per CG certification & testing. I'll get you something when I get it.

Best,
ed

Ed,
I need to send a draft of our Boehner response up the chain for review this afternoon. Do you have a draft of yours that I can copy and paste from?

Also, I heard that the STORIS is no longer in Ensenada. Not sure where she is now.

Thanks,
Bill

Importance: High

Mr. Noggle, Mr. Rollins: as promised here is the radiological survey of the Storis confirming no radioactive components.

Best regards,

Mark, this should suffice. The attached survey report attests to the fact that the USCG conducted the survey and found no emitters.
